

## FAQs for Swim Sessions

How do I prepare for my pool sessions?

- Do not feed your dog for 3-4 hours prior to a swim session
- Please arrive 5-10 minutes early
- Make sure your dog goes potty before heading into the pool room
- Make sure your dog has been brushed and had a recent nail trim

What should I bring to pool sessions?

- We recommend bringing a change of clothes. Even if you do not plan to get in the water with your dog, there is still a chance you will get wet!
- Non-slip shoes
- Towels
- Swim toys

What happens during the introductory visit?

- You will be asked to sign our waiver, go over the facility rules, and provide a copy of vaccinations for your dog
- You will be given a tour of the pool area
- Your dog will then be fitted for their life jacket - we have sizes XS-XXL available to use (you are more than welcome to bring a life jacket from home as well)
- We will then move to the pool to assess how comfortable your dog is getting in and out, as well as how comfortable they are in the water
